MISSION TRIP TO
KENYA AFRICA

JULY 13TH

THROUGH

July 28th, 2019

Why You Should Go!

Short term missions are a powerful way to awaken your spirit to the greater things of God. Although our trips are designed to serve others it is really those doing the serving that gain the most. Mission trips are what God often uses to slow down people long enough to show them his purpose in their life.

As part of a team member of an INHERITANCE MINISTRY MISSION TRIP, you will be trained in the culture of the country, you'll learn everything from what to wear, how to raise funds, what to pack, all about passports, visas, team building, Spiritual preparedness, evangelism, and more!!! We take care of everything you need to know and work right beside you through it all. So there is nothing to worry about!

About The Trip!

What makes our trips unique is the fact that our mission trips are comprised of both ministry outreach and construction! What makes this possible is that our staff has not only served in evangelism, planning special outreaches and ministry events, but also has over 20 years construction experience. So whether you are 15 or 5 times that age

you'll have the opportunity to be trained in direct ministry as well as construction skills, even if you've never had

any experience at either. During one of our trips to Kenya our team accomplished much. Working to construct the first floor of the living quarters for the Haven Children's Home comprising of well over 1,000 solid building block and in addition performed various types of ministry and outreach to the community.

So if you've never experienced this type of a mission trip don't let it scare you.

We stand with each team member and though they are part of a bigger team, we work with them individually to develop their gifts, talents, abilities and their heart so they can serve God to the best of their ability. Whether you are in your young teens, or early 80's God has a place for you on our team!

But even with all the construction and ministry their is plenty of time to balance out all that work with play and evaluation. There will be plenty of time for reflection about life, your relationship with the Lord, and

what it is He is calling you to do and become, all while you experience the wildlife, people, foods and the beauty of East Africa!

The Ministry Project

The work project for our Kenya missions team will take place about two hours North of Nairobi surrounded by the lush green mountains of the central region. We will be working on the construction of a new building for the Haven On The Hill Children's Home.

This building as well as the other work we will perform is important to the orphanage and when done will help change the lives of the children there. In building this building we will be building lives as well. As we've said, don't worry that you may not have any construction experience. Our staff will show you everything you need to know!

In addition to the work project, we will participate in outreach and ministry to the locals in various ways that could include hosting a VBS for the children of the area. visiting and distributing items like shoes, clothes and Bibles to families as well as ministering to the orphans at Heaven on the Hill, and much more!

We will also take a couple of days to do some sightseeing. You'll have the opportunity to bargain at the local market for souvenirs and engage in the culture. You'll also have the possible opportunities of visiting KIBERA
